

Product Data sheet

Number: 112014**Name:** Zinc Aluminum Wire/rod/strips 8515**Chemical Composition(%):**

| Zn | Al | Cu | Fe | Pb | Cd | Sn | Ni |
|---------|-------|------|------|-------|-------|-------|------|
| Balance | 14-16 | 0.01 | 0.01 | 0.005 | 0.003 | 0.001 | 0.01 |

Description and Applications

- Stability like spraying Aluminum , electrochemistry protectiveness like spraying zinc. Good protectiveness floor of sea anti-corrosion .
- Better powerful adhesion ,wearable and anti-corrosion.
- It is widely used in the area of anti-corrosion area, oil chemical, wind and electric, port, food brewing bridge and so on.

Melting Range: 381-452℃**Wire Diameter:** 1.25mm, 1.75mm**Packing Type:** Wire: 5kg/12.5kg/ 15kg/spool

Rods: 1.0-5.0kg/plastic tube
